1. INTRODUCTION

All local municipalities in South Africa have to use Integrated Development Planning as a tool to plan future development in their areas. Integrated Development Planning is a super plan for an area that gives an overall framework for development. The main aim is to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in an area.

In terms of the Municipal Systems Act (Act 32 of 2000), all municipalities must prepare an Integrated Development Plan (IDP). The IDP is a product of integrated development planning process. The IDP is a strategic plan that guides and informs all planning processes, activities, decision making, budgeting and management in the municipality. According to Section 34 of the Municipal Systems Act (Act 32 of 2000) a municipal council must review its IDP annually:

- in accordance with an assessment of its performance measurements in terms of section 41
- to the extent that changing circumstances so demand and
- may amend its IDP in accordance with the prescribed process.

Additionally, reference should be made to Government Notice R796 which refers to the legal requirements of a Spatial Development Framework (SDF). The SDF is an integral part of the IDP, and this notice sets out the core components of an SDF, i.e. (paraphrased)

- objectives that reflect the desired spatial form of the municipality
- strategies and policies to achieve the objectives.
- basic guidelines for land use management
- set out a Capital Investment Framework
- contain a strategic assessment of the environmental impact of the SDF.
- identify programmes and projects for development.
- be aligned with SDFs of neighboring municipalities.
- provide visual representation of the desired spatial form.

The promulgation of the Spatial Planning and Land Use Management Act, Act No. 16 of 2013, also known as SPLUMA, which also seeks to guide municipalities in the preparation of the SDF by providing the content or additional components that will be considered during the development and/or review processes from this point onwards.

Furthermore, all municipalities must prepare a Process Plan as a preparatory phase for the review of the IDP. The Process Plan must outline how the IDP Review process will unfold (i.e., the planning process to be undertaken, organizational structures and distribution of roles and responsibilities). The District Municipality is in charge of preparing a Framework Plan. The Framework Plan and the Process Plan are two distinct documents which should be aligned to guide the review process.

1.1 WHO ARE WE? (OVERVIEW)

Dr Nkosazana Dlamini Zuma is a Local Municipality which emerged as a result of the merger between the former KwaSani and Ingwe Local Municipalities. Dr Nkosazana Dlamini Zuma is a category B municipality and falls within Harry Gwala District Municipality. The municipality has its administrative seats in Creighton and Underberg Town. There are 15 wards with 29 Councilors, 15 Ward Councilors and 14 PR Councilors.

In addition to this the areas of Thunzi, Ngqiya, Ridge and Stepmore which were taken as a result of demarcation process had been reincorporated from Impendle.

The municipality is located on the southern part of Harry Gwala District Municipality and is approximately 80 kilometres South-Western part of Pietermaritzburg which is the capital of the province. It is bordered by Impendle Municipality to the north, Richmond Municipality to the north-east, Ubuhlebezwe Municipality to the south-east, Greater Kokstad Municipality to the south and Kingdom of Lesotho to the west. It is approximately 3200 km2 in extent with an estimated total population of 128 525. Dr Nkosazana Dlamini Zuma Municipality is predominantly rural in nature, and it is in these areas where most of the population resides.

1.2 LEGISLATIVE REQUIREMENTS

1.2.1 The Constitution of the Republic of South Africa

Section 152 of the Constitution of the Republic of South Africa mandates all local government to:

- (a) to provide democratic and accountable government for local communities.
- (b) to ensure the provision of services to communities in a sustainable manner.
- (c) to promote social and economic development.
- (d) to promote a safe and healthy environment; and
- (e) to encourage the involvement of communities and community organizations in the matters of local government.

Section 153 goes on to argue that:

- structure and manage its administration and budgeting and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community; and
- (b) participate in national and provincial development programmes

1.2.2 The White Paper on Local Government

Section B of the White Paper on Local Government presents Municipalities with the challenge of being more developmental. It outlines four main characteristics of a developmental local Government which all municipalities must strive towards. These are:

- (a) Maximizing social development and economic growth.
- (b) Integrating and coordinating.
- (c) Democratizing development.
- (d) Leading and learning.

1.2.3 Municipal Systems Act

Section 25 of the Municipal Systems act outlines that:

- (1) Each municipal council must, within a prescribed period after the start of its elected term, adopt a single, inclusive, and strategic plan for the development of the municipality which—
 - (a) links, integrates and co-ordinates plans and takes into account proposals for the development of the municipality:
 - (b) aligns the resources and capacity of the municipality with the implementation of the plan:

- (c) forms the policy framework and general basis on which annual budgets must be based.
- (d) complies with the provisions of this Chapter; and
- (e) is compatible with national and provincial development plans and planning requirements binding on the municipality in terms of legislation.

1.2.4 CORE COMPONENTS OF THE IDP

An integrated development plan must reflect –

- (a) The municipal council's vision for the long-term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs:
- (b) An assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services:
- (c) The council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs:
- (d) The council's development strategies which must be aligned with any national or provincial. Sectoral plans and planning requirements binding on the municipality in terms of legislation:
- (e) A spatial development framework which must include the provision of basic guidelines for a land use management system for the municipality:
- (f) The council's operational strategies:
- (g) Applicable disaster management plans:
- (h) A financial plan, which must include a budget projection for at least the next three years:
- (i) The key performance indicators and performance targets determined in terms of section 41.

And thus, as such, the process plan at hand will guide the drafting and implementation of the above-mentioned components.

Section 28 of the Municipal Systems Act 32 of 2000 requires the following from each of the municipalities:

- 1. Each municipal council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting, adoption and review of its integrated development plan.
- 2. The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process.
- 3. A municipality must give notice to the local community of particulars of the process it intends to follow.

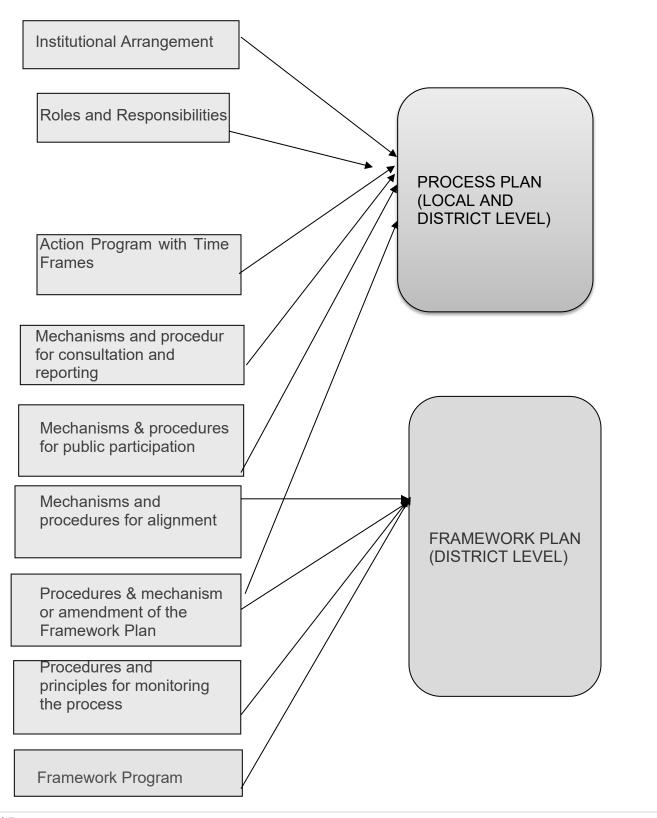

2. DISTINCTION BETWEEN A FRAMEWORK PLAN AND A PROCESS PLAN

The Framework Plan is a coordination tool for the district which ensures interrelated and parallel planning processes at district and local levels whilst the Process Plan is a management tool for each municipality which helps with the management of the IDP process on a day-to-day basis. The Framework Plan must ensure that the district IDP and the local municipalities IDP are mutually linked and can inform each other.

Dr Nkosazana Dlamini- Zuma Municipality Final IDP Review Framework and Process Plan 2026-2027

The Framework Plan binds the district and the local municipalities in consultation and alignment of their planning processes. The Framework Plan is based on a consultative process with the local municipalities whilst the Process Plan is based on appropriate consultation with local communities. The Framework Plan is prepared by the district in consultation with the local municipalities and all municipalities must agree on a joint time schedule and joint milestones. The approved plan has to be made available to all Local Municipalities. It is important to note that some of the sections of the Framework Plan and Process Plan are identical. All local municipalities will use Framework Plan as a basis for drafting their IDP review process plans.

4. PROCESS PLAN AND FRAMEWORK PLAN: CONTENTS IN COMPARISON

4. KEY ELEMENTS TO BE ADRESSED DURING THE DR NKOSAZANA DLAMINI-ZUMA MUNICIPALITY IDP REVIEW

- Draft IDP Assessments
- MEC Panel Comments
- Self-Assessment of the contents of the IDP as well as its credibility
- New Council priorities
- Outcomes based approach (Cabinet Lekgotla Resolutions, District Lekgotla Resolutions, OPMS, State of the Nation Address, State of the Province Address, PGDS and PDP, Outcome 9, Back to Basics, COP 30)
- The Sukuma Sakhe/War on Poverty and War Rooms.
- The review/updating of the SDF to ensure that the IDP and SDF preparation processes are adequately aligned.
- District Growth Development Plan (DGDP)

These are inputs into the IDP development process. The main output is a reviewed strategic document. This, depending on the circumstances of the municipality, is likely to comprise several components, including:

- a reviewed Spatial Development Framework,
- a reviewed Performance Management Framework
- reviewed Sector Plans,
- > updated list of projects,
- Service Delivery and Budget Implementation Plan.

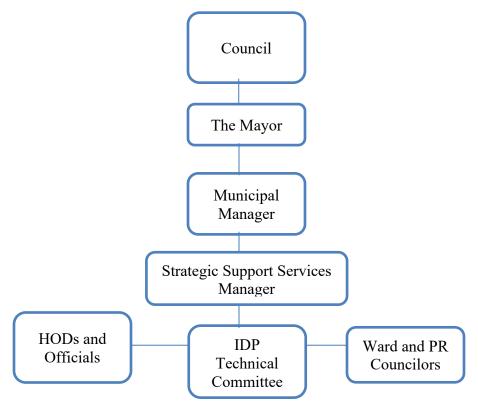

5. ORGANISATIONAL/INSTITUTIONAL ARRANGEMENT

IDP is an integrated plan and requires the involvement of different role players. For the project of this magnitude to be successful, all stakeholders involved must be encouraged to participate in the process. The IDP review process requires participation of communities, stakeholders, and all spheres of government and professionals. In order to ensure the involvement of all affected groups the following persons and structures should be in place:

6. EXTERNAL ROLE PLAYERS

External stakeholders play an important role in the review of the Integrated Development Plan. The Process Plan indicates the public participation process for the review. The public participation process is varied and includes ward level participation. Both written and verbal comments would be accepted. The review process would also accommodate Provincial sector departments inputs. These comments would be obtained during the public participation processes and through a combined representative forum meeting.

Below is the structure reflecting the external role players.

ROLE PLAYERS

| IDP Representative Forum, namely, Sector Departments, Amakhosi, Youth Council, Women's Sector, Men's Sector, People living disabilities, Public Transport Association, Farmers Association, Business Association, Street Traders, NGO's, FBO's, CBO's, Sports Federation, Artists, etc. Harry Gwala District Municipality | Represent the interest of constituents in the IDP Process Provide an organizational mechanism for discussion, negotiation and decision making between the stakeholders, including municipal government. 7. MECHANISM FOR PUBLIC PARTICIPATION

Chapter 4 of the Municipal Systems Act, 2000 states that a municipality must develop a system of participatory governance by encouraging and creating conditions for communities, residents, and other stakeholders to participate in the municipal governance.

The IDP Representative Forum and Ward Committees are the appropriate structures to facilitate public participation in the IDP process. Entrusted with this responsibility, both structures should be highly functional and understand the review process and other processes that are informed by the IDP. Both structures should particularly focus on those social groups that are not well organized and which do not have the power to articulate their interests publicly e.g., woman, disabled, people subjected to poverty, orphans, aged etc.

7.1. FUNCTIONS AND CONTEXT FOR PUBLIC PARTICIPATION

Four major functions can be aligned with the public participation process, namely:

- Appropriateness of solutions
- Needs orientation.
- Community ownership, and
- Empowerment

As with the preparation of the IDP, the public participation process in the IDP Review Process has to be institutionalized in order to ensure that all community have equal right to participate.

7.2 METHODS AND TOOLS FOR PARTICIPATION

The following participation mechanisms are proposed:

District Mayors Forum

In the development of the IDPs, Mayors, Municipal Managers of the municipalities and Government Departments Senior Managers within the Harry Gwala District Municipality meet quarterly to ensure coordination and alignment between local and district municipalities' IDPs. Government Department representatives will form part of the Sector Department meetings to ensure that there is an alignment between the Local and District IDPs and the Provincial policies and budgets. Mayors Forum is chaired by the Mayor of the District.

IDP Representative Forum

The IDP is central to a municipality's ability to deliver on its mandate. It is recognized as a business plan for the municipality and determines projects that a municipality may or may not undertake. Thus, the IDP Formulation process is required to be a transparent and inclusive one and the content of the IDP must be representative of the needs and aspirations of all interest groups in wards. An IDP representative forum is one of the vehicles utilized to promote inclusivity and transparency during IDP process. This forum should be inclusive of all stakeholders in the ward and should serve as a platform for stakeholders to advance and defend the inclusion of their interest in the IDP.

IDP Steering Committee

This committee ensures cooperation and coordination within the Dr Nkosazana Dlamini-Zuma Local Municipality in the IDP process. The IDP addresses the full spectrum of local government services and institutional matters and therefore requires involvement from all departments.

The committee gives technical and financial input into the analysis needs assessments, determination of priority issues and proposed projects. It provides the terms of reference for specific planning and project activities, considers comments and recommendations from the IDP Representative Forum, provincial departments, district council and broad public. This committee also takes responsibility for implementing the IDP as well as monitoring and evaluating the outcomes of the IDP process to ensure that implementation targets are achieved.

Broad Public

The significance of the public participation is emphasized in the Municipal Systems Act, 32 of 2000 as the foundation for the IDP process. It is the responsibility of Dr Nkosazana Dlamini-Zuma Local Municipality through the Ward Councilors, Ward Committees and IDP Manager to ensure that the public is encouraged to participate in the affairs of the municipalities through Community Based Plans (CBP) as well as IDP/Budget/PMS roadshows which are held through all social media platforms available to the municipality as per the Covid-19 Regulations.

These planning sessions focusses on creating an understanding of the community requirements, thereby exploiting community strengths, and eliminating weaknesses.

IDP/PMS Coordinator

The IDP/PMS Coordinator is responsible for the management and coordination of the IDP Process.

Specific aspects the IDP/PMS Coordinator is responsible for includes:

- Formulation of the Process Plan- ensuring alignment with Harry Gwala District Municipality Framework Plan
- Management and coordination of the IDP, Budget, SDBIP and PMS processes
- Ensuring involvement of all role players and stakeholders
- Ensuring that community involvement is effective.
- Ensuring that the IDP is completed within the time frames and is aligned to budget.
- Responding to inputs from participants and stakeholders on the draft IDP

 Consolidate inputs and propose amendments in accordance with the proposals from the MEC for Local Government.

Municipal Manager

The Municipal Manager is responsible for spearheading the IDP, Budget, SDBIP and PMS Process within the Dr. Nkosazana Dlamini-Zuma Local Municipality and ensuring coordination between Councilors, officials, and stakeholders in the process.

In particular, integrated planning, budgeting, monitoring service delivery performance is the responsibility of the Accounting Officer.

Councillors

Councilors are the link between the Dr Nkosazana Dlamini-Zuma Local Municipality and the communities they serve. They are therefore responsible for informing communities of the IDP Process and encouraging them to participate. Ward Councilors coordinate and spearhead the processes of Community Based Planning (CBP) in the respective wards, which determines IDP objectives, strategies, and projects.

Media

Amongst other means, the local newspapers circulating within the area will be used to inform the community on the progress with respect to the IDP Review process.

The following are local newspaper circulating within the District.

- Mountain Echo
- East Griqualand Fever
- Kokstad Advertiser
- NIX Matters
- Provincial Newspapers
- Flyers and Newsletters
- Ward Councillors and Ward Committees
 (there are 150 Ward Committees in Dr Nkosazana Dlamini-Zuma Local Municipality)
- Municipal Notice boards
- Municipal website
- Facebook
- Radio stations
- Instagram
- WhatsApp
- Tik tok
- Municipal Customer Care

Notices

Notices on the IDP Review will be placed on the Municipal Notice Boards and public buildings e.g., schools, clinics, community halls and local supermarkets.

7.3 COMMUNITY/ WARD BASED PLANS

7.3.1 WHY COMMUNITY BASED PLANNING?

Community Based Planning is the developmental approach which is based on sustainable livelihood principles. Its main aim is to ensure that people are active and involved in managing their own development, in claiming their rights and in exercising their responsibilities. As Dr Nkosazana Dlamini-Zuma Municipality we have ensure that this process is being implemented by aligning the CBP with the IDP, this exercise will be done by community members through Operation Sukuma Sakhe structures where community members with the presence of other stakeholders such as government departments, civil society organizations, CDWs and ward committees identify projects that must be prioritized by the municipality in their respective wards. These projects are placed in the municipal IDP; alignment is done because the projects that reflect in the IDP document of Dr. Nkosazana Dlamini-Zuma municipality are informed by the community-based plan. All the fifteen wards of Dr. Nkosazana Dlamini-Zuma Municipality will apply the same process in aligning the CBP with the IDP.

Dr. Nkosazana Dlamini-Zuma Municipality hold meetings with different stakeholders through IDP Roadshows, IDP Representative Forum meetings, Community meetings and Ward Committee meetings which are held per Voting District in all 15 Wards of the municipality. Civil Society structures that exist in the municipality are Business association, Farmers association, Ratepayers and Residents Association. There are a number of special programme structures that have been developed and launched, namely, Local AIDS Council, Youth Council, Men's Forum, Senior Citizens Forum, Disability Forum, Operation Sukuma Sakhe, Local Drug Action Committee.

7.3.2 PROCESS OF DEVELOPING A COMMUNITY BASED PLAN (CBP)

A community/Ward based plan is a form of participatory planning designed to provide community action and to link to the integrated development plan (IDP).

CBP is moving from consultation to empowerment overcoming dependency syndrome, hence giving people power to plan and decide.

Development of CBP/WBPs process uses the following tools:

- Quality of plans- the community must work with what they have.
- Quality of services- the community members must be part of that development plan.
- Community control over that development- the community must feel in control, contribute, and have a sense of ownership for that development.
- A CBP must be prepared by local people, it needs to be owned by the community, they must be
 actively involved throughout the process plan, it must provide information that guides IDP and
 must be supported through discretionary fund.

Who must be involved in CBP/WBP?

- Residents
- Councilors
- Officials
- Structures
- Service Providers
- Traditional leaders
- Local interested groups
- Local business

The Principles of CBP/WBP

- People centered.
- Participatory & responsive
- Partnership between structures
- Flexible & dynamic
- Sustainable
- Holistic & be based on strengths.

10. ALIGNMENT OF IDP, BUDGET AND PERFORMANCE MANAGEMENT SYSTEM

There are two major processes that are informed by the IDP, they are: Performance Management System (PMS) and the Budget process. The IDP and the PMS should be developed at the same time. PMS is a tool to improve service delivery and to monitor the implementation of the IDP. The budget process must be aligned and tied to the IDP and PMS process. It is therefore important that all role players involved in these two processes work together and align their activities.

As indicated above the IDP is the strategic plan and PMS is a monitoring tool and the municipality will prepare a Service Delivery and Budget Implementation Plan (SDBIP) as implementation tool as stipulated in the MFMA of 2003.

| he following outlines the dates for meetings of the different sections to ensure alignment of the arious processes within the municipality. | | | | | |

13. ALIGNMENT MECHANISMS

(a) Alignment with stakeholders

> Vertical Alignment

National Level

The National Government should provide a framework for sectoral, provincial, and municipal planning. This will contribute to the creation of a normative framework consisting of common policy guidelines and principles, general strategic guidelines, and spatial macro-strategies.

Provincial Level

This sphere of government should provide a more specific framework, with mid-term objectives and targets for public investment and services. The Provincial Departments should provide guidelines and funding for the preparation of Sector Plans. Apart from that, all provincial sector departments should be actively involved in the IDP process.

Local Level

To ensure alignment at a local government level the District IDP Manager should drive the alignment process.

Horizontal Alignment

The aim of this level of alignment is to ensure that the municipal planning processes, programs, and projects are addressed jointly. The District Municipality has to facilitate this level of alignment. This process does not only consists of the alignment of the IDP with the SDF but deals with issues relating to planning and developmental issues comprehensively and as well looking beyond a single term of office of the council.

Cross border alignment

Alignment between local government provincial and national sector departments and corporate service providers. The aim of this level of alignment is to ensure that the IDP is in line with national and provincial policies and strategies so that it is considered for the allocation of departmental budgets and conditional grants. This level of alignment will also ensure alignment of the projects and programs with those of sector departments and corporate service providers.

(b) Types of alignment mechanism

IDP Representative Forum

The IDP Representative Forum is a structure which institutionalizes and guarantees representative participation of stakeholders in the IDP Process. The selection of members of

the IDP Representative Forum needs to be based on criteria which will ensure geographical and social representation.

Terms of Reference

- 1. Represent the interests of their constituencies.
- 2. Provide a Forum and mechanisms for discussion, negotiation and decision making between all stakeholders and municipality.
- 3. To ensure communication between all stakeholder representatives, including the municipal government.
- 4. To ensure that alignment takes place at the various levels.
- 5. To monitor the performance of the planning and the implementation process.

Composition: The District will use IDP Representative Forums of Local Municipalities and IDP Representative Forum meetings will be held in each Local Municipality.

THE SERVICE PROVIDERS FORUM

The forum is composed of the various Provincial Sector Departments, Municipal Managers or IDP Managers of all municipalities within the district, Corporate Service Providers (TELKOM, ESKOM) and Municipal Officials responsible for IDP.

Roles and Responsibilities of the Committee

- Ensure alignment of the district IDP and local municipalities IDP's with Plans, projects and programs of Government Departments and Corporate Service Providers
- Identify alignment needs and translate those needs into alignment events.
- Identify entry points for alignment.
- Identify Alignment Mechanisms
- Discuss projects, programs and sector plans and align them with the District and its Local Municipalities (completed projects, existing projects, committed projects and planned)

IDP ALIGNMENT COMMITTEE

Terms of Reference

Objective of the Committee

Alignment is an instrument to synthesize and integrate the top-down and bottom-up planning process between different spheres of government. The Alignment Committee is established at a district level and its main objective is to ensure that planning processes and issues of the district and local municipalities are coordinated and addressed jointly.

Composition of the Committee

The committee is composed of Municipal Managers or IDP Managers of all municipalities within the district, PIMS Centre Staff, IDP Provincial Coordinators (DLGTA) and relevant Harry Gwala Officials. The Alignment Committee is chaired by the District IDP Manager.

Roles and Responsibilities of the Committee

- Ensure alignment of the District IDP with the Local Municipalities
- Identify alignment needs and translate those needs into alignment events.
- Identify entry points for alignment.
- Identify Alignment Mechanisms
- Agree on IDP Review time frame taking into consideration time frame set by DLGTA.
- Discuss projects that are implemented by the district and local municipalities (existing projects, committed projects and planned)

PLANNING AND DEVELOPMENT FORUM TERMS OF REFERENCE

BACKGROUND:

The Harry Gwala Planners Forum was formed for the following objectives:

- To enable planning professionals an opportunity to discuss planning matters broadly. Other
 existing forums are constraining because of the diversity of professionals and caliber of
 people who attend them. Sometimes, important planning issues are rushed through
 because of time constraints.
- To enable planning professionals an opportunity to share lessons and learn from one another's experiences of managing development planning processes.
- To facilitate alignment and integration of development planning processes across the Harry Gwala District Municipality.
- To facilitate and strengthen good intergovernmental planning and relations between the Harry Gwala District and its Local Municipalities.
- To facilitate active interactions with the Department of Local Government and Traditional Affairs, with regard to managing the Integrated Development Plan (IDP), Spatial and Development Administration processes, Performance Management Systems (PMS), Monitoring and Evaluation and Information Management.
- To guide the implementation of the Planning Shared Services within the District.

COMPOSITION:

The Harry Gwala District Planners Forum will constitute officials from the Planning Units/Departments of the District and Local Municipalities and representatives from the Department (COGTA)

CHAIRMANSHIP:

The Harry Gwala District Municipality, Director: Development and Planning will Chair the meeting. At the end of its first year, the position of Chair will then be rotated between all members of the Forum.

STRUCTURED AGENDA:

Given the objectives outlined above, the agenda for the Planners Forum meetings shall be structured in a manner that accommodates matters relating to the IDP; SDF&LUMS, Development Administration, Environment, PMS, Shared Services, and Information Management.

SECRETARIAT:

The Harry Gwala District Municipality in its role as facilitator and co-ordinator will be responsible for the distribution of notices of meetings and for recording outcomes of the meeting.

FREQUENCY AND VENUE OF MEETINGS:

Meetings of the Planners Forum will be convened once every quarter (as a minimum requirement) and allows for additional meetings to be convened as deemed necessary by the Forum. Dates for meetings are to be set in advance for the entire year.

The venue for the meetings will be rotated between the family of municipalities.

ONE-ON ONE SECTOR DEPARTMENT MEETINGS

Harry Gwala District Municipality encourages one on one engagement particularly with the sector departments. This is done in order to maximize participation and to yield greater results in relation alignment and synergy.

15. IDP PREPARED IN HOUSE OR BY A SERVICE PROVIDER

The IDP will be prepared in-house by the officials responsible.

16. PROCEDURES AND PRINCIPLES FOR MONITORING THE PROCESS

The IDP review process needs to be closely monitored to detect as early as possible any deviations from the Framework Plan and the Process Plan. Each municipality is responsible for monitoring its IDP review process and align it with the Framework Plan. All municipalities must revive the following institutional structures to monitor the IDP Review process:

- IDP Steering Committee
- IDP Representative Forum

17. PROCEDURES AND PRINCIPLES FOR AMENDMENT OF THE FRAMEWORK PLAN

The District Municipality has the overall responsibility of ensuring coordination of the joint planning process throughout the district. The Local Municipalities must inform the District Municipality IDP Manager on issues that affect the district activities. The District Municipality has the mandate to decide when and how to make amendments and to therefore postpone any activity or continue with the agreed program. It is worth emphasizing that all municipalities have to agree before the Framework Plan is amended. The following procedures will be followed if amendment of Harry Gwala District Municipality IDP review Framework Plan is required.

- The IDP Manager will inform the IDP Steering Committee of deviation from the Framework Plan and the Process Plan in writing, prior to the scheduled meeting in which the deviation is to be noted.
- The IDP Manager will propose corrective action to bring the planning process in line with the approved Process Plan.

- If the corrective action cannot be accommodated within the approved District Framework Plan, the District Municipality IDP Manager must motivate amendment of the Framework Plan.
- Agreement to amend the Framework Plan must be reached amongst all IDP Stakeholders within the District.
- Members and Municipalities not present will be bound by the decision of the meeting.
- Harry Gwala District Municipality will incorporate approved amendments into the Framework Plan and inform all four Local Municipalities of the amended Framework Plan.
- The amended Framework Plan will be made available to all Local Municipalities.
